

# Dos & Don'ts For Clothing

Do choose 1 or 2 main colors and coordinate a color scheme around them. The brightest color should be used sparingly as an accent color. (If you need help developing a scheme, go to [color.adobe.com/create/color-wheel](http://color.adobe.com/create/color-wheel) and use their color rule tool - that's what I do!)

Do layer pieces, textures/fabrics, colors, solids, and patterns.

Do accessorize.

Do wear things that make you feel fabulous and confident!

Don't wear all white or all black. (May use sparingly. Cream or navy/charcoal are preferred.)

Don't match everyone in the same exact outfit/color.

Don't choose large or gaudy patterns (unless you really know what you're doing).

Don't wear shirts with logos or sayings on them.

Don't choose ill-fitting clothes/shoes, or clothes/shoes that limit mobility.

# Bonus Tips!

Avoid neon colors at all costs!!

Please don't forget to ditch the hairtie around your wrist.

For winter sessions, you can skip bulky winter coats if you layer up with undershirts and long underwear! Add puffy vests and/or scarves for a pop of texture and extra warmth.

If you still feel stuck on ideas, remember that cream, brown, and tan never go out of style and are almost impossible to screw up! (Just please remember to skip black and white.)
